

Wallace's Garden Center Landscape Services

Just Need a Little Advice?

Wallace's knowledgeable staff can offer great ideas for your landscaping needs. Bring in pictures and measurements for great plant suggestions to complete your landscape. Wallaces can also offer helpful advice on lawn care, fertilizing, pest control and many other garden related topics. See the staff at Wallaces for all your gardening needs.

Snapshot Landscaping

Bring us your printed digital photos and measurements and our helpful nursery staff will draw you a quick pencil sketch/design, give you advice and pick out your plants. (Installation can be done by you or by Wallace's for standard installation and labor fees).

Extensive Landscape Design

Wallace's Garden Center is a quality nursery, greenhouse and garden center. We strive to bring you all the best products for your home, lawn and garden. We do not install walls, patios, stone, ponds or water features. Design plans start at \$250 with an additional site visit fee of \$50 and a travel fee determined by zip code with a minimum of \$20. **Site visits are generally not able to be scheduled until after Memorial Day Weekend.**

Plant Installation is 50% of the **regular price** of the plant material with a minimum of **\$100**. Soil amendments are sold separately. Sod cutting, bed preparation, and all other labor are charged at \$80 per man/hour using a two- man crew.

Removal- Wallace's does not provide removal services. Prior to planting, customers should contact a tree removal service to take out trees/shrubs and have stumps ground out. We recommend grinding all stumps/roots to a depth of 24 inches.
